FACULTY OF HUMANITIES AND SOCIAL SCIENCES

Revised Curriculum

RURAL DEVELOPMENT

CURRICULUM FOR THREE YEAR BACHELOR LEVEL

PROGRAM IN RURAL DEVELOPMENT

2072

CENTRAL DEPARTMENT OF RURAL DEVELOPMENT

TRIBHUVAN UNIVERSITY, KIRTIPUR, KATHMANDU

NEPAL

Rural Development

Introduction

There are six papers in this course of which five compulsory and one is functional paper.

Objectives

The objectives of this course are to acquaint the students with theories, approaches, techniques and issues of rural development.

It is also to promote the scientific approach in identifying development issues and solving problems practically regarding social, economic, political and environmental sectors.

Course Structure

Paper	Year	Code No.	Title	Full Marks		
				Theory	Practical	Total
I	First	R.D. 311	Rural Development Theories and Approaches	80	20	100
II	Second	R.D. 312	Rural Economy	80	20	100
III	Second	R.D. 313	Rural Resources, Environment and Management	80	20	100
IV	Third	R.D. 314	Rural Sociology	80	20	100
V	Third	R.D. 315	Government, Institutions and Local Governance	80	20	100
Functional Paper						
VI	Third	R.D. 316	Rural Development Practices	50	50	100

Rural Development
Theories and Approaches
(Theory 80 Marks)

Course No. 311

Full Marks: 80

Year: First

Pass Marks: 28

Paper: I

Lecture Hours: 120

Course Objective

- The objective of this course is to make students familiar with the basic concepts, theories, and approaches of rural development with reference to Nepal. It also aims to provide students with the basic research and statistical tools.

Contents

Units

LH

1. Concept of Development

15

- 1.1 Meaning, Growth and Development, Core Values of Development
- 1.2 Indicators of Development and Dimensions of Development
- 1.3 Underdevelopment and Characteristics of Underdeveloped Economy
- 1.4 Rural Development: Meaning, Objectives and Significance

2. Development Theories

40

Modernization Theory, Lewis Theory of Unlimited Supply of Labor, The Doctrine of Balanced and Unbalanced Growth Theory
Dependency Theory, Schultz's Theory of Traditional Agriculture Transformation, Sustainable Development, Human Development

3. Approaches of Development

15

Community Development Approach, Integrated Rural Development Approach, Basic Needs Approach, Participatory Approach, Rights Based Approach, Rural Livelihood Approach

4. Planning for Rural Development	10
Meaning, Objectives, Types and Need of Planning for Rural Development	
5. Rural Project Management	10
Meaning, Features and Project Cycle	
6. Research Techniques for Rural Development	10
6.1 Nature and Source of Data	
6.2 Census and Sampling Method	
6.3 Data Collection Techniques and Tools	
6.3.1 Household Survey, Observation, Key Informant Interview, Focus Group Discussion	
6.3.2 Questionnaires and Checklist	
7. Statistical Techniques	20
7.1.1 Measures of Central Tendency	
7.1.2 Measures of Dispersion	
7.1.3 Correlation and Regression Analysis

Practical

(20 Marks)

Full Marks: 20

Pass Marks: 10

Lecture Hours: 30

Instructions:

- *This course offers students to involve in proposal writing for the partial fulfillment of the requirement which is compulsory to all. For it, students should be in close coordination with their assigned faculty member/s for the completion of the task. The potential area of the task can be on the topic related to development issues i.e micro-enterprises, agriculture (farming and livestock), drinking water, sanitation, solid waste management, community health campaign/awareness, educational status of government schools, capacity enhancement of users' group/mothers' group and other relevant topics.*
- *The final proposal should be submitted to the respective college. The students should compulsorily present their accomplished task for final evaluation and approval in the presence of respective faculty member/s and external.*
- *Students should bear the expenses of proposal writing and other related activities as fixed by the respective campuses/colleges.*

Proposal Format:

- *Face-Sheet (with study title, submitted to- department/campus, submitted by-name of student, T.U. Regd. No. and class roll no.)*

Acknowledgements

Contents

- *Background of the Proposal, Significance of the Proposal, Objectives of the Proposal, Project Implementation Modality, Expected Outcomes, Estimated Budget and Plan of Action.*
- *References*

Appendix

Page Format: *Margin- Standard (1 inch each side) Font - Times New Roman, titles font size-14, text font size-12, 1.5 line space, pages: 20-25 at Microsoft Word.*

Rural Economy

(Theory 80 Marks)

Course No. 312

Full Marks: 80

Year: Second

Pass Marks: 28

Paper: II

Lecture Hours: 120

Course Objective

- The overall objective of the course is to offer students with the clear understanding of various thematic areas of rural economy so that students will generate the knowledge of various economic dimensions of rural development.
- After completing the course, the students are expected to develop the skill and knowledge in analyzing and solving the problems and issues of rural development in general and rural economic development in particular.

Contents

Units

LH

1 Basic Concept of Economics

15

- 1.1 Fundamental Concept of Economics: Scarcity and Choice; Supply and Demand; Factors of Production
- 1.2 Micro Economics and Macro Economics: Concept, Importance and Principles
- 1.3 Different Sources of Rural Economy

2 Dimensions of Rural Economy of Nepal

25

- 2.1 Nature, Characteristics and Structure of Rural Economy
- 2.2 Demographic Characteristics (Population Growth, Composition and Distribution) of Rural Economy
- 2.3 Agriculture Economy of Nepal: Concept, Status, Cropping Pattern, Land Use Pattern, and Agriculture Modernization
- 2.4 Rural Industries: Concept, Classification, Status, Problems and Prospects
- 2.5 Remittance: Concept, Status, and Importance in Rural Economy

2.6	Service Sector: Concept, Types and Importance in Rural Economy	
3	Rural Marketing and Entrepreneurship Development	15
3.1	Rural Market: Concept, Types, and Features	
3.2	Rural Marketing Strategy and Value-Chain	
3.3	Agriculture Marketing System: Problems and Prospects	
3.4	Entrepreneurship: Concept and Characteristics	
3.5	Problems and Prospects of Rural Entrepreneurship in Nepal	
4	Rural Infrastructure and Development	20
4.1	Rural Infrastructure: Concept and different Forms (Physical Infrastructure and Social Infrastructure)	
4.2	Present Status of Rural Infrastructure (Transportation, Electricity, Irrigation, Communication, Education, Health, and Human Resource)	
4.3	Role of Rural Infrastructure in Rural Development	
4.4	Problems and Prospects of Rural Infrastructure Development in Nepal	
5	Political Economy of Rural Development	10
5.1	Land Reform	
5.2	Economic Reform Policies: Privatization, Liberalization and Globalization	
5.3	Public Private Partnership	
6	Micro Credit and Rural Cooperatives	15
6.1	Micro-credit: Concept, Features and Importance	
6.2	Problems and Prospects of Micro-Finance Development in Nepal	
6.3	Cooperatives: Concept, Principles, Types and Importance	
6.4	Present Status of Cooperatives in Nepal	
6.5	Problems and Prospects of Cooperative Development in Nepal	
7	Economic Issues and Challenges of Rural Development	20
7.1	Poverty and Inequality: Concept, Types, Status, Causes and Mitigation Measures	
7.2	Unemployment: Concept, Types, Causes and Mitigation Measures	
7.3	Land Fragmentation and Food Security	
7.4	Migration and Shortage of Labor Force

Rural Resources, Environment and Management

(Theory 80 Marks)

Course No. 313

Full Marks: 80

Year: Second

Pass Marks: 28

Paper: III

Lecture Hours: 120

Course Objective

- To impart knowledge on interrelationship between population and environmental components, environmental conservation policies adopted by Nepal and the pattern of use of environmental resources.
- To familiarize students to the issues involved in the factors of environmental degradation and management.

Contents

Unit

LH

1. Rural natural Resources and Environment

15

- 1.1 Definition and Meaning of Natural Resources
- 1.2 Types of Natural Resources in Rural Area; Renewable and Exhaustible
- 1.3 Nature of Resources: Natural and Manmade
- 1.4 Use and Misuse of Natural Resources
- 1.5 Definition and Meaning of Environment
- 1.6 Environment and Ecology
- 1.7 Types of Environment; Natural and Manmade

2. Interrelationship between Human Communities and Environments

10

- 2.1 Human and Environment Relationship: Approaches and Thoughts
 - 2.1.1 Determinism or Environmentalism: Pristine State
 - 2.1.2 Possibilism or Developmentalism: Change State
- 2.2 Influences of Environment on Human (different physical factors)
- 2.3 Human's Influences on Environment: Functional Landscape, Ecumene and Esthetic

- 3. Human Settlement 10**
- 3.1 Meaning and Origin of Settlements
 - 3.2 Types of Settlements: Dispersed and Agglomeration and their Relationship with Surrounding Resources
 - 3.3 Different Ways of Use of Resources
 - 3.4 Sustainable Rural Resources: Meaning, Relationship with Settlement Types and Methods of Use of Resources
- 4. Natural Resources 25**
- 4.1 Concept
 - 4.2 Quality of resources: Land, Forest, Pasture and Water
 - 4.3 Production practices: Shifting Cultivation, Transhumance, Subsistence Farming, Intensive Farming, Commercial Farming
 - 4.4 Classification of Resources (Land, Forest, Pasture and Water)
 - 4.5 Distribution of Resources (Land, Forest, Pasture and Water)
 - 4.6 Resource Conflicts: Concept, Types, Causes and Controlling Measures
 - 4.7 Natural Resource Conservation Practices: People Managed, Community Managed and State Managed
- 5. Environmental Degradation and Depletions 15**
- 5.1 Meaning and Types of Environmental Degradations: Landslides, Soil Erosion, Flood, Siltation, Water, Pollution and Land Pollution
 - 5.2 Impacts of Degradations and Depletions on Local Environment and Health of Human Communities
 - 5.3 Controlling Measures of Degradations and Depletions (all those stated above)
- 6. Methods of Environmental Resources Planning and Management 25**
- 6.1 Human Population and Natural Resources Relationship (density and pressure)
 - 6.2 Impacts of Infrastructure Development Activities and Environment
 - 6.3 Environmental Resources Mapping with Respect to Population and Areas and their Interpretations
 - 6.4 Access of Rural people to the Available Resources and Measurement

7. Environmental Resources Planning and Management Strategies 20

- 7.1 Government Policies in Natural Resource Planning and Development of the four Resources: Land, Forest, Pasture and Water
- 7.2 Role of Civil Society and Local Organizations (traditional organizations, User's organizations and NGOs) in Planning and Management of the Natural Resources
- 7.3 Environmental Conservation and Management Strategies for Land, Forest, Pasture and Water

Rural Sociology

(Theory 80 Marks)

Course No. 314

Full Marks: 80

Paper: IV

Pass Marks: 28

Year: Third

Lecture Hours: 120

Course Objectives

- The objective of this course is to acquaint students with basic concepts, theories and methods of rural sociology and to apply them in analyzing rural development process in Nepal.

Contents

Unit	LH
1. Introduction	20
1.1 Rural Sociology: Meaning, Nature and Importance	
1.2 Relation of Rural Sociology with other Social Sciences	
1.3 Major Fields of Rural Sociology: Subject Matters, Methods and Tools	
1.4 Different Branches of Rural Sociology	
1.5 Applied Sociology in Rural Development	
2. Rural Social Structure	25
2.1 Characteristics of Rural People and Rural Life	
2.2 Physical, Social and Economic Structure of Rural Society	
2.3 Social Institution: Family, Marriage, Kinship, Polity and Economy	
2.4 Social Stratification: Caste, Class, Gender and Ethnicity	
2.5 Social Process: Acculturation ,Enculturation , Accommodation, Integration	
3. Social Change	20
3.1 Concept and Meaning	
3.2 Sources of Change	
3.3 Factors of Social Change (Demography, Technology and Economy)	
3.4 Relation between Social, Cultural and Political Changes and Development	

3.5	Social Mobilization and its Role in Social Change	
4.	Approaches of Development	25
4.1	State-Led Development	
4.2	Market-Led Development	
4.3	NGO-Led Development	
4.4	People Centered Development	
4.5	Self-Help Development	
4.6	Localization of Development	
5.	Organization and Leadership	20
5.1	Concept and Meaning of Organization	
5.2	Basic Elements of Organization	
5.3	Induced and Indigenous Organization	
5.4.	Leader and Leadership in Organization	
5.5.	Elements, Nature and Characteristics of Leadership	
6.	Methods of study	10
6.1	Concept and Meaning of 'Field work'	
6.2	Methods of Field Work – Rapport Building, Survey, PRA and RRA	
6.3	Preparation of Field Report
